Subject: RE: ozone briefing materials

Materials would greatly appreciated for the other areas, as well. Thanks so much again!

Subject: RE: ozone briefing materials

To clarify, do you only need materials for Racine County in the Milwaukee area or do you need materials for the other Wisconsin areas too (Sheboygan, Manitowoc, Door & Kenosha (part of Chicago)?

Thanks so much, Kathleen. This is all very helpful information as we move forward. I'll look forward to any materials you may be able to provide, as well as an update from the briefing with you RA. Thanks again!
 Lars

Importance: High

We don't have any materials prepared, but we'll huddle and send you what we can pull together.

We only learned a few minutes ago that we will be briefing our RA tomorrow on the comments received. Given the short notice, our management intends to rely on an oral briefing without much in the way of formal briefing materials. We have the additional twist that our RA is largely recused from Wisconsin issues due to her previous position as the Secretary of the Wisconsin Department of Natural Resources. Since the acting Deputy RA will not be at

the meeting, we will only be giving a broad overview of the types of comments we received on Wisconsin areas and will not be going into great detail with respect to WI designation issues.

Subject: ozone briefing materials
Importance: High

Dear Kathleen,

I've been tasked with organizing briefing materials for ozone designations for Bill Wehrum and was hoping I could rely on Region 5 to provide me with some materials for a few areas. While we do not have specific briefing times, we have been asked to brief the AA on March 22 with regards to Wisconsin, and on March 29 on Western Michigan and potentially Lake and Porter Counties. The AA was particularly interested in Racine county last week, particularly with regards to the FOXCONN facility.

Unfortunately this has to be a very quick turnaround based on the request from my management. Do you happen to have materials already prepared for your RA or management, with technical evidence and options? Can you tell me the schedule region 5 is on for briefing management and your RA? We are now being tasked with providing briefing materials in word format, but if you have materials in powerpoint, I will gladly accept these and adapt them into word.

Due to inclement weather in NC I am working from home today, but can be reached at nonresponsive if you had any further questions.

Thanks so much for all of your help on this, and I look forward to hearing back from you soon.

Kindly,

Lars
